

# NETWORKED COMPUTER SYSTEMS ADMINISTRATION

**2ND YEAR HIGHER VOCATIONAL TRAINING**

COMMUNICATIVE SKILLS IN A FOREIGN LANGUAGE (ENGLISH) *ENGLISH FOR IT*

# MODULE 5: NETWORK ENGINEER: DEFEND A POINT OF VIEW

- 01 Grammar: Comparatives
- 02 Listening: Interview. Network report.
- 03 Grammar: adverb *always*
- 04 Reading: an email to show support

# Grammar: While & whereas

The conjunctions WHILE and WHEREAS are used

- to talk about contrast and to make comparisons

*Whereas* and *while* usually go in the middle of the sentence, but can go at the start. We use them for contrast.

“A cloud and a grid are more wide-scale, whereas a cluster is usually LAN based.”

# Grammar: While & whereas

While is a little different because it can also be used when talking about time or simultaneous events.

*“She continued working on the updates while attending the Zoom meeting.”*

Whereas would not work in this sentence as it is only for contrast.

Whereas and while are similarly used for contrast, but only while can be used for time.

# BEFORE LISTENING: key vocabulary

- **Outdated:** old and useless.
- **Vendor:** a company or manufacturer that sells a product or service.
- **obsolete:** no longer produced or used.
- **IP address:** an ID given to every device connected to a network
- **Prefix aggregation:** combining many IP addresses (prefixes) into one summary IP address (prefix)

# BEFORE LISTENING: key vocabulary

- **OSPF (Open Shortest Path First) areas:** routing protocol feature that provides prefix grouping in order to make routing processes more efficient
- **firewall:** a system focused on security that controls incoming and outgoing traffic
- **VPN (virtual Private Network):** private network built on top of public network to allow secure connections.

# GRAMMAR: ADVERB ALWAYS

Always can mean

- on every occasion
- very frequently
- forever
- constantly
- **Always is an adverb of frequency. We sometimes use it to talk about chance or possibility.**

*“There is always the chance that system vulnerabilities can be exploited.”*

# GRAMMAR: ADVERB ALWAYS

- Always is used to talk about possible solutions, sometimes with can or could.

*“We could always rely on the front end server for more scalability.”*

- Always can be used with as, when we want to say something is typical.

*“As always, we’re having problems with the failover process.”*

- Always generally means 100% of the time. A possibility, chance or option always exists, with 100% frequency.
- In some cases, the frequency may not be 100%, but very close.

# READING: PREPARING VOCABULARY

- **Willing:** Ready, eager, or prepared to do something.
- **Pre-shared key:** A shared secret which was previously shared between the two parties using some secure channel before it needs to be used.
- **802.1 x protocol:** A network authentication protocol that opens ports for network access when an organization authenticates a user's identity and authorizes them for access to the network.
- **PKI Infrastructure:** A set of roles, policies, hardware, software and procedures needed to create, manage, distribute, use, store and revoke digital certificates and manage public-key encryption.

## READING: PREPARING VOCABULARY

- **Accountability:** When an individual or department experiences consequences of their performance or actions.
- **Team player:** A person who values colleagues and plays or works well in a group.
- **Embedded:** A fixed internal part of something.
- **Lawsuit:** A problem taken to a law court by an ordinary person or an organization.

## EXTRA TIP

### What is EAP?

Extensible Authentication Protocol (EAP)

Authentication framework which is frequently used in wireless networks and point-to-point connections.

It provides some common functions and negotiation of authentication methods called EAP methods.
